

17th, THURSDAY 16:45 - 18:15

The role of Brazil, agriculture and forestry in the Paris Agreement agenda

Room: Bering (150) - Blue Zone

Panelists:

Brazilian Minister of Agriculture, Mr. Blairo Maggi

Brazilian Minister of Environment, Mr. José Sarney Filho

World Bank Agriculture Global Director, Mrs. Ethel Sennhauser

Climate Policy Initiative Executive Director, Mrs. Barbara Buchner

Brazilian Coalition Facilitator, Mr. Marcelo Furtado

UNEP Executive Director, Mr. Erik Solheim – to be confirmed

The Paris Agreement entered into force. Now what? How can Brazil implement, cooperate, share knowledge and experiences with other strategic players?

The challenge of implementing the NDC seems even more relevant for those countries with a large forest asset. Brazil stands out as an important player and has the great task of discussing how it will implement its goals.

For this, the Brazilian Coalition on Climate, Forests and Agriculture built a forum for discussion and co-creation among the key players of Brazilian society - civil society, private sector, academia and financial sector - to make the transition to a low-carbon economy, that contemplates solutions and investment in opportunities for sustainable agriculture and forestry. Thus, this side event aims to bring together decision and opinion makers from countries that are key in these fields in order to learn and share experiences about the political, technical and financial aspects of the Paris Agreement implementation agenda.
