Making adaptation effective through ecosystem-based approaches to climate change

We are pleased to invite you to this side event that will provide an overview of the opportunities and challenges Ecosystem-based Adaptation (EbA) offers. The panelists will deliberate on the role of ecosystems as ‘natural’ adaptation infrastructure and assess the effectiveness of investing into EbA for enhancing the resilience of communities & ecosystems.

Interactive panel session featuring:

Ali Raza Rizvi (moderator)

Program Manager, Ecosystem Based Adaptation, International Union for Conservation of Nature

Paolo Domondon

Senior Manager, Strategy and Development, Rare

Kathy B. McLeod

Managing Director, Climate Risk and Investment, The Nature Conservancy

Norbert Gorißen

BMUB Head of Division, International Climate Finance, International Climate Initiative, IKI

Ronald Jumeau

Ambassador for Climate Change and Small Island Developing State Issues, Republic of Seychelles

Carlos Alberto Pineda Fasquelle

Vice Minister of Environment and Mines, Honduras
