IUCN PROFESSIONAL CERTIFICATE

Nature-based Solutions
Harnessing the potential of the IUCN Global Standard

The concept of Nature-based Solutions (NbS) is drawing a lot of attention but few know what it means in practice and how to apply the IUCN Global standard for NbS, which is at the foundation of the concept. As the author of the Global Standard, IUCN is offering a professional certificate designed for its members, Commission members, and all stakeholders in the business and policy sector willing to explore the concept of Nature-based Solutions, its early applications, and to participate further to its development.

What is the Programme Content
Module 1 : Why Nature-based Solutions?
Module 2 : What is NbS and What is Not
Module 3 : The IUCN Global Standard for NbS
Module 4 : The Assessment Tool
Module 5 : Assess and Design using the Standard

WHY TAKE THE CERTIFICATE?

- Pave the way towards positive change as you gain expertise in using the assessment tool to evaluate NbS interventions
- Explore new career paths as you become an IUCN-certified professional on the IUCN Global Standard for NbS
- Participate in the development of the standard as you contribute to increasing collective knowledge and share your experience
- Join a network of experts and peers for continuous learning, build collaboration and develop alliances on NbS
- Bring your own case and work on it to gain your professional certificate

Who should attend?
Professionals from all sectors who wish to gain credentials on the IUCN Global Standard and to acquire skills to assess and design Nature-based Solutions.
