

Building Capacity on Integrated Land-Use Planning Law

Module 2

Practical Exercise

Scoping Opportunities for Improving Linkages Between and the Integration of Land Use, Climate Change and Biodiversity Issues within your Landscape through the Law

Legal Tools & Integration Options

Purpose

- Provide participants with an opportunity to apply their newly acquired knowledge of integrated land-use planning law to their own landscape.
- Build participants' appreciation of the environmental, social, economic, administrative and legal features that influence their different landscapes.
- Increase participants' ability to objectively identify & understand the land-use planning tools, laws and institutions applicable to and operating within their landscape.
- Improve participants problem-solving skills aimed at identifying opportunities for improving the linkages between and integration of land-use planning, biodiversity and climate issues in their landscape through current laws or legal reform.

Structure

Part 1

Drawing the Landscape

50 min

Part 2

Identifying applicable ILUPL

60 min

Part 3

Evaluating applicable ILUPL

60 min

Part 4

Group Presentation

60 min

Part 1 – Drawing the Landscape

environmental features

social features

economic features

administrative/legal features

key issues, threats and opportunities

Part 2 – Identify the ILUPL

- What land-use planning tools currently apply to their landscape?
- What laws govern these land-use planning tools?
- What is the legal status and role of each of these land-use planning tools?
 - Are they informative - provide information that decision makers must/may take into account in their decision making?
 - Are they prescriptive - create binding rights and obligations for landowners and/or trigger permitting processes?
- Which institutions are responsible for administering each of these land-use planning tools?

Part 2 – Identify the ILUPL...

RELEVANT EXISTING LAND-USE PLANNING TOOLS, LAWS AND INSTITUTIONS			
Land-Use Planning Tool	Relevant Law	Legal Status/Role	Institution

answer template 1

**either
OR
both**

landscape drawing

Part 3 – Evaluating the ILUPL

- **Improving existing land-use planning tools:**
 - Identify the existing land-use planning tools operational in your landscape.
 - What external factors positively or negatively shape or influence the implementation, use and integration of the current land-use planning tools, laws and institutions?
 - How could the legal framework be adapted to improve the implementation, use and integration of the current land-use planning tools, laws and institutions?

Part 3 – Evaluating the ILUPL...

○ Adding new land-use planning tools:

- Identify land-use planning tools that are currently not operational in the landscape and that you think could be of some use in improving the linkages between and integration of climate, biodiversity & land-use issues in the landscape?
- Are there any current laws through which these land-use planning tools could be implemented?
- If so, under which law could they be implemented and by which institution?
- If not, which institution would be appropriate to consider implementing new legislation to provide for the missing land-use planning tools
- What external factors would potentially influence the success or failure of introducing these additional land-use planning tools through the law.

Part 2 – Identify the ILUPL...

record answers

IMPROVING EXISTING LAND-USE PLANNING TOOLS			
Name of Tool	External Factors Promoting Implementation	External Factors Undermining Implementation	Reform Requirements & Opportunities

answer template 2

reform

ADDING NEW LAND-USE PLANNING TOOLS			
Name of Tool	Law through which it could be implemented?	Institution responsible for implementing it?	Key External Relevant Factors

answer template 3

add

**either
