PART 1 – INSTRUCTIONS TO PROPOSERS AND PROPOSAL CONDITIONS

1.1. About IUCN

IUCN is a membership Union uniquely composed of both government and civil society organisations. It provides public, private and non-governmental organisations with the knowledge and tools that enable human progress, economic development and nature conservation to take place together.

Headquartered in Switzerland, IUCN Secretariat comprises around 950 staff in more than 50 countries.

Created in 1948, IUCN is now the world’s largest and most diverse environmental network, harnessing the knowledge, resources and reach of more than 1,300 Member organisations and some 10,000 experts. It is a leading provider of conservation data, assessments and analysis. Its broad membership enables IUCN to fill the role of incubator and trusted repository of best practices, tools and international standards.

IUCN provides a neutral space in which diverse stakeholders including governments, NGOs, scientists, businesses, local communities, indigenous peoples organisations and others can work together to forge and implement solutions to environmental challenges and achieve sustainable development.

Working with many partners and supporters, IUCN implements a large and diverse portfolio of conservation projects worldwide. Combining the latest science with the traditional knowledge of local communities, these projects work to reverse habitat loss, restore ecosystems and improve people’s well-being.

PART 2 – THE REQUIREMENT

Terms of Reference

With a comprehensive rights-based framework underpinning its conservation and sustainable development efforts, IUCN recognizes that protecting and promoting women’s rights and advancing gender equality, including through women’s empowerment, are not only globally agreed imperatives in their own right, but fundamental to meeting its mission. The Global Programme on Governance and Rights (GPGR) works to support and advance gender-responsive action across the Union, with members and through a wide array of projects and partnerships. IUCN also promotes gender-responsive policy and decision-making at global and national levels and provides technical guidance and capacity building as such.

This specific time-bound consultancy (Senior gender and environment advisor, Consultant) will support gender responsive and socially inclusive IUCN programmes and policy positions, especially related to critical UNFCCC and CBD processes in 2020-2021, which is also an important period for review of the Beijing Platform for Action and Generation Equality. Tailored policy support and capacity building for IUCN members and commissions on gender-environment issues is a core part of this consultancy, including around the World Conservation Congress. In complement, this consultancy will also provide specific deliverables to support implementation of key projects, including those on gender-responsive climate action in a number of countries.

To fulfill the Terms of Reference, significant gender-responsive policy and technical programming experience is required, with demonstrated impact in relevant gender and/or environment policymaking processes, as well as national implementation. Strong knowledge of Rio Convention policy spheres and progression in the last decade and current processes is fundamental. Extensive experience building and delivering gender-focused trainings is also key. While the working language is English, additional fluency in French is very highly preferred, especially to support communications with national partners on key deliverables.

Responsibilities and deliverables

1. Global policy guidance and technical support: Gender-responsive policy guidance and engagement across major environmental spheres, as well as environmental guidance across gender equality and women’s rights spheres (approx. 45 days of effort, total)
   - Develop policy brief on gender-environment linkages, geared to synthesize core issues across relevant global and national processes, identify opportunities for enhanced action post-2020, and provide targeted recommendations to IUCN government and non-governmental members (Sept-Oct; approx. 10 days)
   - Draft gender-responsive inputs for IUCN position papers and submissions, as well as internal working group meetings, including by reflecting priority positions from constituencies (e.g., women’s major groups, Indigenous Peoples Organisations and women’s networks,) as well as drawing from evidence from across IUCN programmes. Developing a strategic “living” calendar of opportunities is an important input to this (ongoing, as submission opportunities emerge and evolve; approx. 10-15 days)
   - Participate in key relevant gender-focused processes especially related the gender actions plans of the Rio Conventions, providing technical support on behalf of IUCN when required (e.g. UNFCCC virtual gender sessions) (Oct, and as needed ongoing; approx. 5 days)
   - Review, enhance and spearhead IUCN’s implementation of, and reporting related to, the gender action plans under the Rio Conventions, developing a short summary for use in reporting and communications (Oct-Nov; approx. 5 days)
   - Spearhead collaboration and shepherd targeted gender-responsive climate (and biodiversity conservation) strategies under Generation Equality, harnessing the wide range of GPGR and IUCN programming that champions and demonstrates feminist climate action, coordinating on behalf of and representing IUCN’s team when needed (Sept – ongoing; approx. 15 days)

2. Cross-sector capacity building for gender-responsive decision-making, policy and action: Developing and delivering tailored gender training tools, sessions and other capacity building support to both continue to advance and implement global gender mandates (approx. 45 days of effort, total)
   - In close cooperation with GPGR staff and IUCN commission group(s) and partners, lead development of a half-day training session on “gender and environment 101” at / for the IUCN World Conservation Congress, including refining a concept note for a virtual and in person training with partners (Sept);
• Gathering inputs (e.g., existing IUCN gender training toolkits) from across partners and networks (Sept-Oct); co-leading facilitation of virtual and in person training (January); and packaging tools/modules for subsequent training use by IUCN and its members (February) (approx. 20 days total)

• In close cooperation with GPGR and other programme/office teams, provide strategic guidance to cross-sector capacity building strategies and sessions to key projects, in particular as part of Pakistan’s gender-responsive Readiness project, supported by the Green Climate Fund, including by developing and supporting delivery of a half-day training session for governments actors (Sept-Nov) (approx. 4 days)

• In close cooperation with GPGR as above, provide tailored technical capacity support across IUCN teams, to ensure gender-responsive national capacity in Pakistan is identified and strengthened, as well as linked to global processes, toward developing and implementing a national gender-responsive climate action plan (ongoing; approx. 4 days)

• Provide capacity building and strategic advice to develop sector-specific gender analyses and applying them for more robust cross-sector and gender-responsive programming in Pakistan (and the wider region) through Skype sessions and desk-based review of materials (ongoing; approx. 5 days)

• Support development of cross-sector capacity-building sessions to strengthen gender-responsive review, implementation and monitoring of countries’ Nationally Determined Contributions (NDCs) (expected 1-2 sessions over Oct-Feb; approx. 5 days)

• Provide technical reviews from a gender perspective on countries’ national climate change policies and plans, in particular Nationally Determined Contributions, tailoring feedback to build capacity of key decision-makers and implementers. French fluency is particularly sought here (ongoing; approx. 5-10 days)

**REQUIREMENTS**

• Advanced degree in a related field, such as international development, international law or policy, international relations, women’s rights and gender equality, or sector-specific environmental fields such as fisheries, agronomy or forestry; strong academic, research, policy and/or practical application of knowledge in gender equality required.

• Minimum 10 years of experience in gender and environment-related policy and programming, with demonstrated experience, strategy and impact in global and national policy spaces; specific experience developing, implementing and tracking impact of gender action plans is highly preferred.

• Exceptional English language skills (e.g., presenting, writing, editing) with additional language skills desirable; working fluency in French (and/or Urdu) in particular is highly preferred for fulfilling the needs of this ToR, while a working knowledge of Spanish or Arabic is another advantage.

• Strong track record of building or cooperating within cross-sector networks and initiatives.

• Strong skills in training and other capacity building activities, with experience developing and facilitating capacity building sessions at global and national levels.

• Passion for and demonstrated ability to work cross-culturally, with sensitivity, diplomacy and kindness.

• Good working knowledge of IUCN and its mission, as well as its commissions and members; previous working experience with IUCN or IUCN members or commissions preferred.

Explanation of the relation between technical and cost score

Each of the 5 technical questions will receive a mark out of 5, which will be weighted by 2. The maximum technical score is 10 x 5 = 50.

The maximum cost score of 50 will be assigned to the financial proposal with the lowest cost. Other financial proposals will be weighted relative to the lowest cost (lowest bid cost divided by the bid cost and multiplied by 50). For example, if the lowest financial offer received is $80 and scored 50 points, the financial offer of $100 will receive 40 points (80/100*50).

Technical (50) plus Cost (50) = 100.

If either of the technical question is scored 1 or 0, the proposal will be disqualified regardless of the cost score.

16. TERMINATION

16.1 Termination for cause

16.1.1 IUCN reserves the right to terminate this Agreement in whole or in part, upon written notice with immediate effect in the event that the Consultant:

i. has falsified or provided inaccurate, incomplete or misleading information in any documentation provided to IUCN;
ii. defaults in carrying out any of its obligations under this Agreement;

iii. has engaged in illegal acts, including, without limitation fraudulent or corrupt actions as defined in Code of Conduct and Professional Ethics for the Secretariat and IUCN’s Anti-fraud Policy (hereafter referred to as a “Fraud”);

16.1.2 If it is determined that the Consultant has committed Fraud in competing for or in the performance of this Agreement, all expenditures incurred under this Agreement shall be undue and the Consultant shall promptly reimburse IUCN for all expenditures incurred in the performance of this Agreement.

16.2 Termination for lack of Donor funds

IUCN shall have the right to terminate this Agreement with immediate effect and without any liability for damages to the Consultant in case the agreement between IUCN and the Donor is terminated and/or the Remuneration funds become unavailable to IUCN.

16.3 Termination for force majeure

16.3.1 The performance of this Agreement by either Party is subject to acts of God, war, government regulations, epidemics, pandemics, disaster, strikes (excluding strikes of respective Parties’ personnel), civil disorders, curtailment of transportation facilities, or other emergencies making it illegal or impossible for either Party to perform its obligations (“Force Majeure Event”). The Party subject to a Force Majeure Event shall promptly notify the other Party of the occurrence and particulars of such Force Majeure Event, including how it impacts the performance of its obligations under this Agreement. The Party so affected shall use diligent efforts to avoid or remove such causes of non or delayed performance as soon as is reasonably practicable.

16.3.2 This Agreement may be terminated unilaterally without compensation for any one or more of the foregoing reasons by written notice from one Party to the other.

16.3.3 Notwithstanding the above, the Parties may agree to a suspension or an extension of the Agreement as deemed appropriate. Upon termination of the Force Majeure Event, the performance of the suspended Services shall without delay recommence.

16.3.4 The Party subject to the Force Majeure Event shall not be liable to the other Party for any damages arising out of or relating to the suspension or termination of Services by reason of the occurrence of a Force Majeure Event, provided such Party complies with all the requirements under this article 16.3.

16.4 Effects of Termination

In the event of termination under this article, IUCN shall pay the Consultant any outstanding Remuneration in respect of Services performed by the Consultant up until the effective date of termination, it being understood that the total amount payable by IUCN to the Consultant shall not exceed the Remuneration stated in clause 5 of the Agreement. The Consultant shall within thirty (30) days of termination, and at IUCN’s request:

16.4.1 to the extent possible, complete the Services subject to the Remuneration made available until the date of termination and stop all ongoing activities;

16.4.2 refund to IUCN any advance payments received in excess of the total expenditure incurred as evidenced in the invoices submitted to IUCN,

16.4.3 reimburse IUCN for any expenditures made in breach of the terms of this Agreement; and

16.4.4 submit final technical and financial reports and any other materials, deliverables, works or other outputs created as at the date of termination under this Agreement.
17. APPLICABLE LAW AND DISPUTE RESOLUTION

17.1 The performance and interpretation of this Agreement will be subject exclusively to the laws of Switzerland, excluding its conflict of laws principles.

17.2 Any dispute arising out of or in relation with this Agreement that cannot be resolved amicably by the Parties or by way of mediation shall be submitted to the competent courts of Lausanne, Switzerland.

18. GENERAL PROVISIONS

18.1 This Agreement is the complete understanding between IUCN and the Consultant and replaces all other agreements and understandings in reference to the subject matter of this Agreement.

18.2 Any modification or amendment of this Agreement shall be in writing and shall become effective if and when signed by both Parties.

18.3 This Consultancy Agreement is non-exclusive. IUCN is free to consult other experts in the Consultant’s field of specialization.

18.4 This Agreement is personal to IUCN and the Consultant, and neither Party may sell, assign or transfer any duties, rights or interests created under this Agreement without the prior written consent of the other.

18.5 Either Party waives all and any rights of set-off against any payments due hereunder and agrees to pay all sums due hereunder regardless of any set-off or cross claim.

18.6 All provisions that logically ought to survive termination of this Agreement shall survive.

This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement. The Parties agree that the signed counterparts may be delivered by e-mail in a ".pdf" format data file or electronic signature (e.g., DocuSign or similar electronic signature technology) and thereafter maintained in electronic form, and that in this case such signature shall create a valid and binding obligation of the party executing with the same force and effect as if such ".pdf" or electronic signature page were an original thereof.
