PART 1 – INSTRUCTIONS TO PROPOSERS AND PROPOSAL CONDITIONS

1.1. About IUCN

IUCN is a membership Union uniquely composed of both government and civil society organisations. It provides public, private and non-governmental organisations with the knowledge and tools that enable human progress, economic development and nature conservation to take place together.

Headquartered in Switzerland, IUCN Secretariat comprises around 950 staff in more than 50 countries.

Created in 1948, IUCN is now the world’s largest and most diverse environmental network, harnessing the knowledge, resources and reach of more than 1,300 Member organisations and some 10,000 experts. It is a leading provider of conservation data, assessments and analysis. Its broad membership enables IUCN to fill the role of incubator and trusted repository of best practices, tools and international standards.

IUCN provides a neutral space in which diverse stakeholders including governments, NGOs, scientists, businesses, local communities, indigenous peoples organisations and others can work together to forge and implement solutions to environmental challenges and achieve sustainable development.

Working with many partners and supporters, IUCN implements a large and diverse portfolio of conservation projects worldwide. Combining the latest science with the traditional knowledge of local communities, these projects work to reverse habitat loss, restore ecosystems and improve people’s well-being.

1.2. Summary of the Requirement

IUCN invites you to submit a Proposal for the preparation of the full sized project and GEF CEO endorsement request for the following project: Development of an integrated system to promote the natural capital in the drylands of Mauritania (three regions). The detailed Terms of Reference can be found in Part 2 of this RfP.

1.3. The procurement process

The following key dates apply to this RfP:
1.4. Conditions

IUCN is not bound in any way to enter into any contractual or other arrangement with any Proposer as a result of issuing this RfP. IUCN is under no obligation to accept the lowest priced Proposal or any Proposal. IUCN reserves the right to terminate the procurement process at any time prior to contract award. By participating in this RfP, Proposers accept the conditions set out in this RfP.

Proposers must sign the “Proposer’s Declaration” and include it in their Proposal.

1.5. Queries and questions during the RfP period

Proposers are to direct any queries and questions regarding the RfP to the above IUCN Contact. No other IUCN personnel are to be contacted in relation to this RfP.

Proposers may submit their queries no later than 10 July 2020, Midnight CET.

As far as possible, IUCN will issue the responses to any questions, suitably anonymised, to all Proposers. If you consider the content of your question confidential, you must state this at the time the question is posed.

1.6. Amendments to RfP documents

IUCN may amend the RfP documents by issuing notices to that effect to all Proposers and may extend the RfP closing date and time if deemed appropriate.

1.7. Proposal lodgement methods and requirements

Proposers must submit their Proposal to IUCN no later than Midnight CET on 16 July 2020 by email to: bechir.ndiath@iucn.org and iucngef@iucn.org. The subject heading of the email shall be RfP – GEF 7 Mauritania Drylands PPG. Electronic copies are to be submitted in PDF and native (e.g. MS Word) format. Proposers may submit multiple emails (suitably annotated – e.g. Email 1 of 3) if attached files are deemed too large to suit a single email transmission.

IMPORTANT: Submitted documents must be password-protected so that they cannot be opened and read before the submission deadline. Please use the same password for all submitted documents. After the deadline has passed and no later than 8 am CET on 17 July 2020, please send the relevant password to the same email address as used for submitting your Proposal. This will ensure a secure bid submission and opening process. Please DO NOT email the password before the deadline for Proposal submission.

Proposals must be prepared in English and in the format stated in Part 3 of this RfP.

1.8. Late and Incomplete Proposals

Any Proposal received by IUCN later than the stipulated RfP closing date and time, and any Proposal that is incomplete, will not be considered. There will be no allowance made by IUCN for any delays in transmission of the Proposal from Proposer to IUCN.

1.9. Withdrawals and Changes to the Proposal

Proposals may be withdrawn or changed at any time prior to the RfP closing date and time by written notice to the IUCN contact. No changes or withdrawals will be accepted after the RfP closing date and time.
1.10.  **Validity of Proposals**
Proposals submitted in response to this RfP are to remain valid for a period of 90 calendar days from the RfP closing date.

1.11.  **Evaluation of Proposals**
The evaluation of Proposals shall be carried out exclusively with regards to the evaluation criteria and their relative weights specified in part 3 of this RfP.
PART 2 – THE REQUIREMENT

Background on the project

Following approval by the 58th Council of the Global Environment Facility (GEF) and the Government of Mauritania, IUCN will implement the following full-sized project: Development of an integrated system to promote the natural capital in the drylands of Mauritania.

This project will be funded through the land degradation focal area of the GEF, up to USD 3,913,626 million and is expected to mobilize USD 20,200,000 million in co-financing. The budget available for this RfP is a maximum of USD 120,000.

The approved project is presently in the form of concept (Project Information Form - PIF) in and can be shared upon request. Following the project approval cycle of the GEF, this PIF must now be fully developed into the following required documents:

- IUCN-GEF Project Document (ProDoc) including all annexes (budget, work plan, M&E plan, procurement plan, co-financing letters, Environment and Social Screening, Environment and Social Impact assessment and Environmental and Social Management Plan if relevant)
- GEF CEO Endorsement Request (CEO-Doc)

The project concept can be requested on demand to the IUCN contact.

Terms of References

The Consultants who will be awarded this contract will be responsible for preparing the GEF CEO Endorsement request and the Project Document including all annexes for the above-mentioned project. This will consist of the following:

1) Scoping and consultation
   - Baseline scenario analysis, including socio-economic and socio-political analysis, local governance of natural resources and respective rights
   - Analysis of the institutional, legislative and policy framework
   - Stakeholder analysis at project site level, including drylands products value chains, insurance and microfinance actors
   - Market analysis for the target commodity chains
   - Identification of potential project partners, including the executing agency, existing projects on the ground and to come, and synergies
   - Confirmation of co-financing opportunities
   - Consultation with relevant stakeholders
   - Mapping of target areas, identification of sites and target communities
   - Prepare stakeholder analysis (including at project site level) and plan stakeholder involvement for designing the project
   - Prepare preliminary risk analysis
   - Draft logical framework with disaggregated gender indicators, the theory of change and the baseline for the GEF Core indicators of the project (ref. IUCN Gender equality and women's empowerment policy)
   - Inception workshop for the project preparation phase and other relevant consultations workshops

2) Project design
   - Detailed evaluation of the baseline scenario, related activities and projects, including co-financing
   - Detailed gap analysis to justify the GEF incremental cost reasoning
   - Refinement of the theory of change and logical framework based on the above
   - Design of project components
   - Development of project budget
   - Design the workable institutional arrangements and coordination mechanisms among participating governmental, non-governmental and private organisations at national and site levels
   - Design of the overall project budget and work plan, including a procurement plan
   - Detailed risk analysis and mitigation measures
- Develop Gender Action Plan and ensure that the project responds to gender equality objectives
- Prepare a monitoring and evaluation plan, including the establishment of the baseline for the GEF core indicators of the project taking into account the gender responsiveness
- Carry out stakeholder consultations to ensure appropriate involvement of relevant stakeholder in project design and document the consultations in an appropriate format
- Hold a technical validation workshop
- Prepare a stakeholder engagement plan (see respective Guidance Note for details)

3) Environment and Social Management System (ESMS)
- Provide relevant information for the ESMS screening of the project in respect to the IUCN Environment and Social Management System (ESMS) (as documented in the ESMS Manual, Standards, Guidance Notes and Screening Questionnaire, available on the ESMS site)
- Identify any Environment and Social risks and propose adequate measure for avoiding or mitigating risks, in consultation with relevant stakeholders and in particular with project affected groups
- Prepare an Environment and Social Management Framework (ESMF) or Environment and Social Management Plan (ESMP) or any other safeguard tool depending on the ESMS screening decision
- Coordinate with IUCN ESMS team as appropriate

Project team and qualifications

The following expertise is expected to be available between the experts who will compose the team:
- Drylands / forest, land ecosystems management
- Knowledge of pastoral social and livelihood systems
- Experience in value chain development
- Project design and implementation, including development of project budget, monitoring and evaluation
- Experience in designing gender-response conservation projects
- Proven experience in inclusive stakeholder consultation, assessing environmental and social impacts and development of safeguard tools in the context of conservation projects
- Financial Management, including procurement
- Knowledge of Mauritania context, including the natural resources management policy environment
- Fluency in English, local language is a plus.

The team will have to demonstrate a track record of designing successfully ecosystem restoration projects in the region for at least over the past 5 years, including working with donors such the GEF, the World Bank and other relevant UN agencies. The team will be constituted in a way to easily fulfil the tasks in a context of travels restriction (eventually); in this regards, a team with put together international and national experts is highly recommended.

Deliverables

- Baseline study
- GEF CEO endorsement request as per GEF template
- IUCN project document including all annexes as per IUCN template (upon request)
  i. Budget
  ii. M&E plan
  iii. Work plan
  iv. Procurement plan
  v. ESMS Screening Questionnaire as input to IUCN’s ESMS Screening Report
  vi. Environment and Social Impact Assessment (if required by ESMS Screening)
  vii. Environment and Social Management framework or plan or other safeguard tools as required by ESMS Screening
  viii. GEF Core Indicators templates
  ix. Preliminary Ecological Connectivity Areas Maps
  x. Signed co-financing letters
  xi. GEF Operational Focal Point Endorsement Letter
  xii. List of stakeholders consulted during the PPG
  xiii. List of participants to the validation workshop
The deliverables will have to be the result of extensive stakeholder consultations, which will have to be detailed in the consultants’ methodology and work plan. This will include inception workshop, extensive stakeholder consultations on sites, and validation workshop(s), to be defined in the consultants’ methodology and work plan.

Period of consultancy

The consultancy is expected to commence on 1st August 2020 and follow the tentative schedule below:

The budget requested for the preparation of the project will have to be aligned with the PPG funds available (see project background in part 2 above)

Travel

The contract will require the Consultant to travel to the region as agreed with IUCN. Cost of travel will be provided in the bid and will have to comply with the IUCN policy on travel.
PART 3 – THE EVALUATION MODEL

The selection criteria will consist of a technical and financial component. A weighting will be provided to each component as follows: Technical Weighting Factor 70%, Financial Weighting Factor 30%, with the total score a combination of these two percentages.

The technical component involves an evaluation of the following six criteria based upon the information provided in the submitted proposal documentation:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Methodology and Work Plan</td>
<td>25%</td>
</tr>
<tr>

<td>10%</td>
</tr>
<tr>

<td>5%</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

Only proposals which achieve a total score (Technical Score) of more than or equal to a value of 70% will be considered for financial evaluation. Proposals scoring less than 70% will be discarded from the tender evaluation process.

Technical proposals scoring greater than or equal to a value of 70% will be normalised by dividing their percentage by the maximum proposal technical percentage, and converting this value into a percentage to give the Normalised Technical Score.

The financial evaluation will be based upon the full professional fee value submitted in the proposal combined with the estimate of total expenses (travel & subsistence et al.) as defined by the bidder in their proposal. Each proposal price will then be normalised by dividing the smallest bid price value by this proposal's price, and this value turned into a percentage (Financial Score). Proposals that exceed the available budget will be disqualified.

The Normalised Technical Score will be multiplied by the Technical Weighting Factor, the Financial Score multiplied by the Financial Weighting Factor and the two weighted scores added together to provide a Final Weighted Score for each bid achieving a Technical Score >70%.

IUCN will then enter into contractual negotiations with the bidder achieving the highest Final Weighted Score, as long as all other bid criteria, as laid out in this documentation, have also been met and adhered to.
PART 4 – INFORMATION TO BE PROVIDED BY PROPOSERS

By participating in this RfP, Proposers are indicating their acceptance to be bound by the conditions set out in this RfP.

This Part details all the information Proposers are required to provide to IUCN. Submitted information will be used in the evaluation of Proposals. Proposers are discouraged from sending additional information, such as sales brochures, that are not specifically requested.

Each of the following must be submitted as a separate document, and will be evaluated separately.

4.1. Declaration

Please read and sign the Declaration from this link and include this in your proposal.

4.2. Technical information/Service Proposal

Bidders are required to submit the following details in their technical proposal:

a) Project Methodology – describing in adequate detail how the Consultant intends to undertake the project delivery, justifying the approach described (maximum of 4 pages);
b) Project Team – identifying Team Leader and supporting experts;
c) CVs of all project Team Members (maximum 2 pages per CV);
d) Activity Work Plan – using weekly/monthly intervals for the activities and tasks identified in the Project Methodology;
e) Staffing Work Schedule – identifying days/weeks of input of staff identified in the Project Team, for the activities identified in the Activity Work Plan in the weeks/months they are estimated to occur;
f) Evidence of similar projects undertaken within the last 5 years – where this experience is provided by sub-consultants this needs to be clearly identified as such;
g) References – contact details of 3 No. referees familiar with the bidder’s experience relevant to the PPG

The technical proposals should be presented addressing the six criteria in Part 3 – Evaluation Model and must contain the following documentation;

4.3. Pricing information

This clause sets out the information necessary for Proposers to furnish rates and prices as consideration for delivering the Requirement under any resultant Contract.

Prices include all costs

Submitted rates and prices are deemed to include all costs, insurances, taxes, fees, expenses, liabilities, obligations, risk and other things necessary for the performance of the Requirement. Any charge not stated in the Proposal as being additional, will not be allowed as a charge against any transaction under any resultant Contract.

Applicable Goods and Services Taxes

Proposal rates and prices shall be exclusive of Value Added Tax.

Currency of proposed rates and prices

Unless otherwise indicated, all rates and prices submitted by Proposers shall be in USD.
